GitHub: https://github.com/yashikamalik23 Mobile: +91-9389731093

SKILLS

Programming: Python, SQL, Java, HTML, CSS
Frameworks: Django, FastAPI
Core CS Concepts: Data Structures & Algorithms, Database Management System, Operating System
Data Science: Machine Learning, Predictive Modeling, EDA, Statistics, NumPy, Pandas, Matplotlib, Seaborn
Tools: Excel (Advanced), Power BI, Jupyter Notebook, Git/GitHub
Soft Skills: Problem-Solving, Team Collaboration, Adaptability, Analytical Thinking

PROJECTS

Employee Record Management System Using Django | GitHub Jan'26- Feb'26

- Created a dynamic web application using Python, Django, HTML, CSS, and SQLite to streamline employee data management with a user-friendly interface and efficient database handling.
- Implemented user registration and login features with a personalized dashboard displaying employee profiles, experience, and skills, ensuring secure authentication and easy access to information.
- Integrated CRUD operations to allow admins and employees to easily create, update, and delete records.

Titanic Survival Analysis Visualization | GitHub Jul'25- Aug'25

- Performed Exploratory Data Analysis (EDA) on the Titanic dataset to identify factors influencing passenger survival.
- Created detailed visualizations to analyze the impact of factors such as age, gender, and passenger class on passenger survival using data visualization techniques.
- Derived meaningful insights from the Titanic dataset using statistical and visual analysis.

Global Health Statistics Dashboard – Power BI Dec'25-Jan'26

- Developed an interactive dashboard using Microsoft Power BI to analyze global health trends across regions, enabling easy monitoring of key health indicators through a user-friendly interface.
- Processed and analyzed 1M+ records to track key health KPIs such as disease cases, prevalence, mortality rates, and healthcare access across multiple regions.
- Delivered actionable insights using charts, maps, and dynamic filters for effective data analysis.

TRAINING

Summer Training – PL/SQL & Data Science Bootcamp (online) Jun'-25 – Jul'25

- Learned PL/SQL programming, database operations, and query optimization techniques.
- Developed a Campus Placement Management System using PL/SQL and PostgreSQL to manage records.
- Gained hands-on experience in functions, procedures, triggers, and relational data management.

Skill Craft Technology (Online) – Data Science Intern May'25 – Jun'25

- Performed data collection, cleaning, preprocessing, and Exploratory Data Analysis to prepare datasets for analysis.
- Used Python libraries such as Pandas, NumPy, Matplotlib, and Seaborn for performing data analysis and creating meaningful visualizations to identify patterns and insights.
- Developed understanding of end-to-end data science workflows and analytical fundamentals.

CERTIFICATES

- Data Analytics Job Simulation – Deloitte Australia (Forage) | Nov'25
- AWS Cloud Practitioner Essentials – AWS | Oct'25
- Introduction to Data Science – Cisco | Oct'25
- Cloud Computing – NPTEL | Feb'25
- Computational Theory & Automata | ChatGPT Made Easy – Infosys | Jun'25

ACHIEVEMENT

- **Code of Duty Hackathon – Participant** Feb'24
  Participated in a 24-hour hackathon, developing solutions in a team under time constraints.
- **Secured 2nd Prize at State -Level Drawing & Sketching Competition:** Jan'22
  Awarded for outstanding creativity and artistic skills in state-level art competition.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.40 Aug'23 - Present

Saraswati Vidya Mandir Inter College Puranpur, UP
Intermediate; Percentage: 87% Apr' 22 – Mar' 23

Saraswati Vidya Mandir Inter College Puranpur, UP
Matriculation; Percentage: 83% Apr' 20 – Mar' 21
